

🚨 EMERGENCY RED ALERT: FLASH FLOOD & CAMPSITE EVACUATION!

Just as you are finalizing your draft, a severe weather advisory drops. Heavy rain has triggered flash floods, completely closing the eastern trail sector. All bookings at Central Refugio are canceled. Your group is stranded at Pudeto. **The Pivot:** You must reroute your entire trip to enter from the Western Sector (Paine Grande) immediately. How do you adapt without violating Tomek's 8kg knee limit and Kasia's food needs?

Phase II: The Western Reroute Strategy (25 Minutes)

Step 1: Rapid Web Research — In the source panel, select 'Search the Web' and type:

'Paine Grande trail options Torres del Paine W Trek western entrance catamaran timetable Pudeto Pehoe'

Review and select the top 2 authoritative guides, then click 'Import Sources' to securely add them as grounded RAG vectors.

Step 2: Conflict Resolution Query — Run a diagnostic query to merge your group constraints with the new path:

Based on our newly imported web sources and our group preferences file, evaluate how entering the trek from Paine Grande impacts our team. Specifically analyze: 1) Is there a vegan food alternative at Paine Grande refugio? 2) What is the exact physical elevation and distance of the first leg, and does it exceed Tomek's knee limitations? 3) Calculate the additional cost of the Pudeto catamaran in PLN.

Phase III: Studio Deliverables & Presentation

Once your queries are resolved, navigate to the **Studio Panel** in the right sidebar. We will use NotebookLM as a content factory to assemble our presentation assets:

- **Presenter Slides:** Click 'Slide Deck', set the template to 'Presenter Slides', and input: *'Generate a visual briefing for our group on our new western rerouted Patagonia itinerary, including safety guidelines, budget table in PLN, and individual constraint mapping.'*
- **The Safety Podcast:** Click 'Audio Overview', set the format to 'Debate' or 'Deep Dive', and prompt the hosts to discuss: *'A fun but highly serious safety walk-through of the Torres del Paine Western entrance for a group with physical and dietary constraints.'*
- **The Showcase:** Prepare to display your slide deck or play your 60-second audio walkthrough to the crowd to claim your event shirt!
